LETTER OF RECOMMENDATION

I am writing this letter as a recommendation for the services provided by **Gooday**.

We have recently cooperated with Daniel on a fairly large-scale project - the development and implementation of our Shopware-based e-commerce platform.

We were very pleased with the whole process. The company brought along good expertise, experience and support. Daniel and his team were always accessible, ready to help and share their ideas and suggestions. Thanks to their commitment and professional attitude the project was delivered smoothly and in a timely manner.

We have been completely satisfied with the overall result and the level of service provided and would highly recommend **Gooday** services to any company looking for a reliable partner in their projects.

Sincerely,
David Zurek
